Good. I will see if Brian Ross or someone in the wetlands office would be interested in going. Or Sarah Ziff may be interested and available too.

Juliet

I am forwarding the below email to provide EPA notification that Terraphase plans to initiate SSAP sampling on March 6<sup>th</sup>. Terraphase has provided some more details on the schedule below but please feel free to reach out to Jeff Wallace who is the Terraphase Project Lead if you need more information.

Regards, Melisa

**Subject:** Sediment Sampling Schedule

Hi Melisa:

We are planning to begin the Redwood Creek sampling on March 6, with an estimated completion of field activities in the middle of the following week. We don't plan to work the weekend days of Mar11-12.

Would like us to notify EPA, or would you like to do this?

The daily field schedule will evolve day to day as we flex around the tidal cycle to maximize our production during the daylight hours. On the first day of sampling (March 6), the crew will aim to get inside the wharf perhaps as early as 9:30 am.

**Jeff Wallace, RG, LHg**
